

DIYA TRIVEDI

☎ +91 8200297363 ✉ tdiya5797@gmail.com [in LinkedIn](#) [GitHub](#)

Skills

Programming Languages: C++, Java, Python, JavaScript, HTML/CSS
Core Computer Science: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks
Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, React Native, Mongoose, Socket.io
GenAI & LLM Knowledge: Large Language Models (LLMs), LLM Architecture Basics, Retrieval-Augmented Generation (RAG), Hugging Face, Ollama, Prompt Engineering
Backend & DevOps: Docker, Celery, RabbitMQ, REST APIs, Cron Jobs, Rate Limiting, Asynchronous Processing
Databases: MongoDB, SQL

Experience

Fxis.ai — Associate Full Stack Developer **June'25 – Present**

- Developed scalable full-stack applications using React.js, FastAPI, and MySQL, improving system efficiency and maintainability.
- Architected a multi-tenant system with secure data isolation and implemented RBAC for fine-grained access control.
- Built secure authentication systems using JWT and integrated Google reCAPTCHA v3.
- Led development of an AI-powered HR recruitment portal with REST APIs, WebSocket-based real-time features, and responsive UI.
- Integrated AWS services and implemented Redis caching to optimize performance.
- Containerized applications using Docker and followed Git-based collaborative development practices.

Fxis.ai – The Original AI Company | FullStack Developer Intern **June'25-Sept'25**

- Built a News API application using React.js and integrated REST APIs.
- Learned and implemented backend development using FastAPI.
- Developed a Trello-style task management dashboard using React.js, FastAPI, and SQL.
- Contributed to internal tools including customizations in Zoho CRM.

Knovos India Pvt. Ltd. | Java Developer **January'25-April'25**

- Mastered Object-Oriented Programming (OOP), Threading, and Multithreading to build efficient Java applications.
- Gained foundational expertise in AI/ML, including Neural Networks and Generative AI concepts.
- Hands-on experience with Big Data tools: Apache Hadoop for distributed storage and processing.
- Leveraged Apache Lucene and Solr to develop advanced data search and indexing solutions.

Projects

ChatApp | [React.js](#), [Socket.io](#), [Node.js](#), [Express.js](#), [MongoDB](#) | [GitHub](#)

- Developed a real-time chat application using WebSockets for low-latency bidirectional communication.
- Implemented secure authentication and authorization using JWT-based mechanisms.
- Enabled private messaging, persistent chat storage, and responsive UI for cross-device usability.
- Optimized performance for concurrent users with efficient state and socket management.

Placement-Board | [React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#) | [GitHub](#)

- Built a full-stack job portal enabling students to apply for placement drives and track opportunities.
- Designed advanced filtering and search functionality based on role, location, and package.
- Integrated a structured learning module for technical, aptitude, and interview preparation.
- Improved user experience by reducing response time and enhancing UI responsiveness.

Achievements

- Achieved Global Rank 1335 in CodeChef Starters-95 (Div-4).
- Secured Runners-up position in SSIP Hackathon 2023 for innovative tech solutions.

Education

LDRP Institute of Technology and Research

Bachelor of Technology in Computer Engineering (CGPA of 8.48)

2021 - 2025

Gandhinagar, Gujarat India

Bhulka Vihar School

12th Science (Percentage: 87.69)

2019 - 2021

Surat, Gujarat India
